

ALBERTA CO-OPERATIVE ENERGY

Your Energy Co-op

SUSTAINABILITY PROGRAM

Customers are free to purchase natural gas services or electricity services from a retailer of their choice. For a list of retailers, visit ucahelps.alberta.ca or call 310 4822 (toll free in Alberta)

****All Micro-gen Credits are Subject to Alberta Regulations****

OUR MISSION

- ❖ To support small-scale micro-generators in Alberta by providing them with fair market value for their excess generation
- ❖ To offer a marketplace for local Green Energy Offsets
- ❖ To encourage the development of local renewable energy projects in Alberta
- ❖ To contribute towards Alberta's Climate Action goals and GHG reductions

OUR PROGRAMS

ACE and our founding member, SPARK (Alberta Renewable Energy Cooperative), have always been at the forefront of developing new innovative programs to remove barriers for supporting renewable energy development in our province. After the Light Up Alberta Program was shut down in 2015, SPARK launched a local Green Offset Program.

SPARK GREEN OFFSET PROGRAM

Our SPARK Green Offset Program is the first of its kind in Alberta.

Through this unique program, individuals and businesses have the opportunity to purchase locally generated Green Energy Offsets from solar, wind, or other renewable energy generators in Alberta.

Our program cuts through red tape and regulatory barriers, enabling consumers to freely support renewable energy generators of their choice.

We Have Directed
More Than
\$70,000
To Over 140
Alberta
Microgenerators

HOW DOES IT WORK?

Solar and wind small-scale micro-generators in Alberta generate excess energy that is exported into Alberta's electrical grid.

By signing up as a SPARK Certified Green Generator with ACE, micro-generators are able to sell their wholly owned renewable energy attributes of their exported energy as Green Energy Offsets to our customers.

ACE customers can choose to "green" some or all of their electricity consumption by purchasing Green Energy Offsets from our SPARK Certified Green Generators such as a local wind turbine or a specific group of solar small-scale micro-generators that are located in their neighbourhood or community.

When Green Energy Offsets are purchased by our customers, ACE ensures that their financial support goes directly to the SPARK Certified Green Generators through an open and auditable process.

In addition to receiving the existing Alberta microgeneration credit, SPARK Certified Green Generators receive up to 1.85 cents/kWh for their Green Energy Offsets.

CHOOSE YOUR LEVEL OF SUPPORT

When signing up for an ACE energy plan, you can choose the percentage of power usage that you would like to green!

100% = \$0.020 / kWh

75% = \$0.015 / kWh

50% = \$0.010 / kWh

25% = \$0.005 / kWh

GREEN GENERATOR PROGRAM

Our small-scale micro-generators have three rate plan options to choose from and our green generators have the opportunity to sell their wholly owned renewable energy attributes of their exported energy as Green Energy Offsets to our customers through our Green Offset Program. See our website for details!

HOW DOES IT WORK?

You Choose the Micro-Gen Rate Program that Suits You Best... and We Do the Rest. Your options include the **Spark Solar Smart** program, the **Small-Scale Year-Round High Rate** plan, or the **Small-Scale Year-Round Fixed (Low) Rate** program.

SPARK SOLAR SMART			
HIGH EXPORT MONTHS (APRIL - OCTOBER)		LOW EXPORT MONTHS (NOVEMBER - MARCH)	
			
GREEN GENERATOR RATE PLAN	SALE OF GREEN ENERGY OFFSETS	AVAILABLE FIXED RATE PLAN	SALE OF GREEN ENERGY OFFSETS
\$0.3000 / kWh + \$0.0099 / kWh	+ Up To \$0.0185 / kWh	\$0.1280 / kWh + \$0.0099 / kWh	+ Up To \$0.0185 / kWh
YOU PAY: 30.00 cents + EMR / kWh		YOU PAY: 12.80 cents + EMR / kWh	
YOU RECEIVE UP TO: 32.84 cents / kWh		YOU RECEIVE UP TO: 15.64 cents / kWh	
SMALL-SCALE YEAR-ROUND HIGH RATE		SMALL-SCALE YEAR-ROUND FIXED (LOW) RATE	
			
GREEN GENERATOR RATE PLAN	SALE OF GREEN ENERGY OFFSETS	AVAILABLE FIXED RATE PLAN	SALE OF GREEN ENERGY OFFSETS
\$0.3000 / kWh + \$0.0099 / kWh	+ Up To \$0.0185 / kWh	\$13.80 / kWh + \$0.0099 / kWh	+ Up To \$0.0185 / kWh
YOU PAY: 30.00 cents + EMR / kWh		YOU PAY: 13.80 cents + EMR / kWh	
YOU RECEIVE UP TO: 32.84 cents / kWh		YOU RECEIVE UP TO: 16.64 cents / kWh
